

Brainstorming & Idea Prioritization

Date	06 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	4 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Gara Priyanka	Use a Multiple Linear Regression model because the relationship between HDI and indicators like life expectancy and schooling is highly linear and easy to interpret.	Machine Learning Model Backend / Deployment User Interface (UI)	1

Step 2: Idea Prioritization

Brainstorming & Idea Prioritization Template

Rate each group idea on feasibility and importance ,then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	Utilize Multiple Linear Regression. It is highly feasible, computationally fast, and provides excellent accuracy for this specific dataset.	Medium	High	1	Yes
2	Develop a web dashboard with a Flask Backend and HTML/JS frontend with input sliders	High	High	2	Yes
3	Source data from UNDP and implement automated handling for missing values	High	High	3	Yes
